Item 3

Joseph has been living in the rift valley for several years. During the wet season, floods tend to displace him with his neighbors but they later come back in the dry season where they experience hot conditions. However, this has not stopped him from enjoying this part of East Africa. Though he has a lot of stories about the rift valley, Joseph fails to explain its origin to the new members of his community. The community leaders who are not different from him have organized a sensitization meeting where you are expected to attend.
