**THE SKETCH MAP OF LUKAYA BETWEEN EASTING 740 TO 840 AND
NORTHING 880 TO 840 SHOWING VEGETATION RELIEF DRAINAGE
SETTLEMENT AND TRANSPORT.**

- The learners sketch should include both physical and human made features.
- Accurately drawn sketch with 5 or more features. 03
 - Accurately drawn sketch with 3 – 4 features 02
 - Accurately drawn sketch with less than 3 feature 01
 - Poorly drawn or no sketch. 00

b. Statement of the problem

Statement of the problem

The non Government organization is not adequately informed about the areas geography and is looking for someone who can provide the relevant information.

- Complete statement 02
- Partial statement 01
- Wrong / no statement 00

Statement of introduction.

The area is experiencing deteriorating climatic conditions characterized by low rainfall total and rising mean temperatures , Programs such as afforestation may help to reverse the trend.

Introduction 01 No introduction 00

The following information shall help the organization in its effort to plant trees in the area.

- The area has extensive land to the east in the areas of Mwota , Lubumba, Nabikakara where trees may be planted.
- The area is a flat lowland which makes cultivation easier.
- The area received ample rainfall for the growth of trees and this is evidenced by the presence of forest such as the one to the north of Kafu, permanent swamps like Lwera , Lwanswaswa and Katonga, lake Victoria .
- Favorable temperature which are warm/ hot as the area lies slightly south of equator at 0°05S
- Water bodies in the area provide water for irrigation of the trees during dry season eg. L. Victoria , river Kafu, Lwera swamp.
- The area is sparsely populated in areas such as Nabikakra, Lubumba , Lwera mwota with plenty of empty land where the trees may be grown.
- The settlements in Mwota, Kakwanzi Namusuja provides the labour needed to work on the project.

Scoring

Award scores in case of

- More than 5 well explained responses with examples 03

- Between 3 – 4 well explained responses with examples 02
- Below 3 well explained responses with examples 01
- Explained response without example 00
- No response / wrong response... 00

Statement of learner's opinion.

- The tree planting project will succeed if the company takes advantage of existing land, climate, drainage and settlement. 01
 No opinion 00

Total score 10

$$\text{United Arab Emirates} = 496/4317 \times 360 = 41.3$$

A PIE CHART SHOWING UGANDA'S TRADE WITH
SELECTED COUNTRIES

Pie chart should have the details below i.e. correct calculations, correct measurements of sectors labeling.

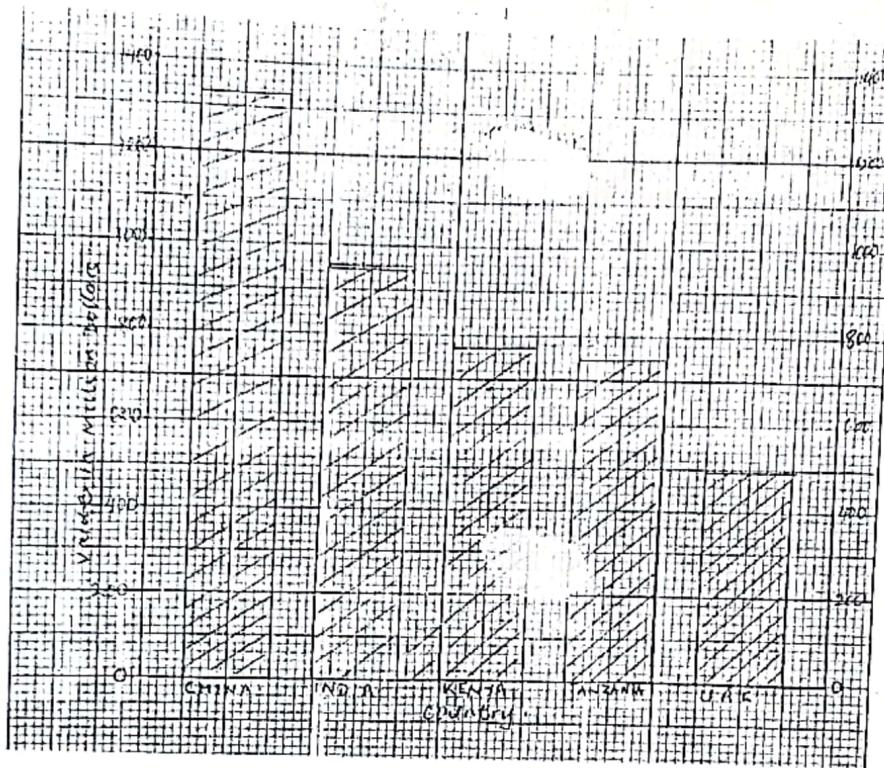

SCORIN

Accurately drawn pie chart with all the details. (03)

- Accurately drawn pie chart with some details. (02)
- Pie chart minus most of the details. (01)
- Wrong and no pie chart. (00)

Or

A BAR GRAPH SHOWING THE VALUE OF UGANDA'S IMPORT TRADE WITH SELECTED PARTNERS IN 2022.

Vertical scale 2:200million

Horizontal scale 2:1 country

Details of the graph include title, vertical scale, horizontal scale, accurate bars, key/ labeling

SCORING

Accurately drawn graph with all the details. (03)

- Accurately drawn graph with some details (02)
- Graph drawn with very few details. (01)

B. Statement of the problem

The local traders are being out competed by the foreign traders but they are reluctant to extend their business to the countries neighbors.

- Full statement (02)
- Partial statement (01)
- Wrong/no statement (00)

Introduction

- Correct/ relevant introduction(01)
- No introduction (00)

The write up should include reasons why the traders are reluctant to embrace regional trade/inter African trade

- Insecurity in the countries
- Competition from traders in neighbouring countries.
- Existence of identical commercial good produced
- Low purchasing power in the neighboring countries
- Negative attitude towards foreign business

SCORIN

5 or more problems well explained (03)

3-4 problems well explained (02)

1-2 problems well explained (01)

Wrong/no problems (00)

Statement of the learners opinion

Correct statement with evidence (01)

Wrong/no statement (00)

IT 6

Statement of the problem

James William migrated from the village to the town with hope of having better life but ended up landing into problems again

- Full statement 02
- Partial statement 01
- Wrong statement 00

Introduction

-Definition of migration and types of migration

- Correct introduction (01)
- No introduction (00)

- The article should include the challenges that, James faced while in the village and the problems he uncountered in town.

a) challenge in the village/rural area

- Shortage of land for farming
- High unemployment
- Poor social service delivery
- Un productive soils
- Boring social life
- Insecurity
- Limited business opportunities

SCORIN

- Identification and explanation of 5 or more challenges (03)

- Identification and explanation of 3-4 challenges (02)
- Identification and explanation of 1-2 challenges (01)
- Wrong/no challenges (00)

Problems faced by the people in the urban areas includes

- Un employment
- Traffic congestion/jam
- Slum development/poor housing
- Overcrowding in residential and work places
- High levels of pollution of land, air, water

SCORING

- Identification and explanation of 5 or more problems (03)
- Identification and explanation of 3-4 problems (02)
- Identification and explanation of 1-2 problems (01)
- Wrong/no problem (00)

Statement of learner's opinion

Learner may point out that problem in the rural areas force people to move to the towns the increasing population in the urban center poses further difficulties to the people

Scoring

- Correct statement with evidence (01)
 - Wrong/no statement (00)
- Total score (10)
